Lichi

Story in focus

Lichi's Journey to Recovery: Overcoming Trauma and Embracing Life

Lichi arrived at the CGS Hospital in critical condition after a severe road accident. With a fractured right femoral head and multiple lacerations, immediate medical attention was needed. Dr. Vikash and his team at the hospital swiftly performed the crucial FHO surgery. Thanks to their expertise and care, Lichi made an impressive recovery, gradually regaining her mobility. Inspired by this positive outcome, her caretakers took further steps to ensure her well-being. Now, Litchi experiences the happiness and normalcy every animal deserves.
