Showcasing Veterinary Excellence

CGS Veterinary Care Facility recently participated in a leading veterinary engagement at Pullman New Delhi Aerocity, creating an opportunity to connect with a diverse community of animal caregivers, lovers and industry stakeholders in order to create awareness on animal welfare.

The CGS team engaged visitors through interactive discussions and shared insights on advanced veterinary services, specialised treatments, and the importance of preventive healthcare for dogs and cats. Such engagements reinforce CGS Hospital's commitment to delivering high-quality, compassionate veterinary care while staying at the forefront of advancements in animal health and the evolving needs of animal caregivers.

CGS Participates at the International Veterinary Education Programme

Dr Vikash Singh Chauhan, Deputy Director, CGS Veterinary Hospital, represented the hospital at an international Veterinary Education programme organised in Vŭng Tàu and Ho Chi Minh City, Vietnam.

Invited as a speaker, Dr. Chauhan delivered a case-based presentation on CT imaging of the thorax and abdomen, highlighting advanced

diagnostic approaches and practical clinical applications in veterinary radiology.

The programme brought 170 veterinary practitioners, serving as a valuable platform for academic exchange, global collaboration and continued professional development in the field of veterinary medicine.
