Pasha Wing's Free Vaccination Programme Continues to Save Lives

CGS Veterinary Care Hospital's Pasha Wing through their free vaccination programme which started in the year 2021, continues to conduct regular visits to various shelters and organise vaccination camps to ensure the welfare of animals across Gurugram and Delhi-NCR. With the support of community feeders and caretakers, it provides stray dogs and cats with vaccinations against life-threatening diseases like canine distemper, parvo, leptospirosis, feline panleukopenia, and rabies. Cases of distemper, feline panleukopenia, and parvo have noticeably reduced in the served areas, safeguarding the lives of many stray animals.
